

# CX Collaborative Decarbonization in Transport and Logistics Systems

Dr. Frederik Schulte  
Asst. Professor  
Delft University of Technology

REthinking and FOstering Competence and  
skills for sUustainable transport, Shipping,  
and logistics

Funded by  
the European Union

# Reflect, Draft, and Peer Review a Roadmap

## Instructions

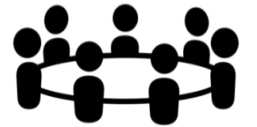

Discuss lessons learned from the game and decide on which key actions need to be taken for your organization to succeed in the transition to shore power:

30'

1. What **lessons did you learn** for your organization?

- Were your decisions successful - why/why not?
- What would you change if you were to play again?
- What changes would you require from other players?

- Work in groups as defined earlier

2. Prepare a shore power **draft roadmap** for your organization (ppt/drawing) + peer review those of the others'

- What actions need to be taken when?
- Are all the elements included?
- How do you validate your assumptions and make sure you stay on track in later years?

THANK YOU FOR YOUR ATTENTION
